

# LATE NEWS

KILLED IN HOLDUP  
CHICAGO.—Anton Basetic, 35, was shot and killed by two bandits today, when he attempted to resist their efforts to hold up the real estate office of C. L. Jurka. Basetic was a customer in the office when the hold-up occurred. The bandits escaped without obtaining any funds.

MILLS TO OPEN  
WARREN.—Between 2,000 and 3,000 working men of Warren will be given employment during the coming week when city steel mills will operate at almost full capacity. In the neighborhood of 50 hot mills will be running in the Warren mills next week which augurs well for the return of better labor and industrial conditions from which the city has been suffering for the past several months.

MRS. J. W. ELLSWORTH DEAD  
AKRON.—Julia Ellsworth, wife of James W. Ellsworth, Hudson millionaire philanthropist, died Thursday at their winter home, Villa Palmira, near Florence, Italy, according to a cablegram received by relatives at Hudson this morning. Mr. and Mrs. Ellsworth devoted much of their time and money to beautifying their home town and restoring Western Reserve Academy.

FARRELL TO WED  
DAYTON.—Announcement was made today at Xenia, of the approaching marriage of Henry L. Farrell, United Press sporting editor, with headquarters in New York, to Miss Katherine Louis Shoup, daughter of Judge and Mrs. Marcus Shoup, of Xenia.

MURDER CASE ARGUED  
DEDDHAM, Mass.—The hearing before Judge Webster Thayer of the superior court on petitions for a new trial for Nicola Sacco and Bartolomeo Vanzetti was continued at the court house here today. Counsel for the men, who were convicted by a jury of murder in the first degree for a double killing in connection with a payroll robbery at South Braintree in April, 1920, resumed the arguments in their behalf begun last Saturday.

TOLEDO MEDICAL COLLEGE  
FOUNDER TAKEN BY DEATH

TOLEDO—Dr. William Dickey, 71, founder of the Toledo Medical College and one of the most widely known physicians in Ohio, died at his home here late yesterday.

Dr. Dickey stumped the state for President McKinley, and made wide tours throughout Ohio in the interest of other political aspirants, both for president, governor and senate. For the last 22 years Dr. Dickey has made his home in Toledo. He spent virtually his entire life in Toledo.

GUNS SALUTE  
ALLIED CHIEF  
AT CHICAGO

CHICAGO—(By Associated Press)—Two days crowded with festivities in honor of Marshal Ferdinand Foch began with the allied chief's arrival here at 9 o'clock this morning, accompanied by General Pershing and their staffs.

A cavalry escort, a delegation from the American Legion and military officers were awaiting him at the station.

The marshal and his party were taken in automobiles to Grant Park, where Governor Small, Mayor Thompson and a party of state officials were to give him an official welcome, while the first field artillery, Illinois national guard, greeted him with a salute of nine guns.

The feature of the afternoon's program was the laying of a wreath upon the statue of Abraham Lincoln.

ATT WILL FILED  
The will of Lewis Att, late of Spencerville, was filed for probate in court, late Friday. Hearing will be Tuesday.

U. S. OPENS  
GREATEST OF  
RADIO WORKS

NEW YORK—(By Associated Press)—Radio Central, the most powerful wireless station in the world—having such range and magnitude as to provide simultaneous communication with every continent—was formally opened today on Long Island.

The first message transmitted was one from President Harding to the people of all civilized nations.

When completed, Radio Central will comprise 12 antenna units supported by 72 towers spread out as the spokes of a giant wheel almost three miles in circumference. Each tower is to be 410 feet high. Twelve of them are already up.

The sending plant is at Rocky Point, L. I., the receiving station 16 miles distant at Riverhead. At neither place are there any radio operators. All of the actual operating work in sending and receiving messages is performed 70 miles away in the heart of the New York financial district. The transmission is accomplished between the city traffic office and the stations by a remote control system.

The Radio Corporation of America will conduct this giant wireless center, made possible thru the financial, commercial, technical research support of several American concerns interested in telegraph and wireless accomplishments.

A power output of 2,000 kilowatts, or 2,700 horsepower, will be furnished the plant by high frequency alternators. This great electrical force permits the realization of the vision of communication engineers to transmit messages to all points of the world from a single centrally located source.

MILLER CITY MAN FINED  
\$100 ON LIQUOR CHARGE

E. D. Taylor, 80, Miller City, Putnam Co., who told police he was a discharged soldier, was arrested at the Marshall House at 7 p. m. Friday, after he had called there for a suitcase containing liquor.

Taylor was fined \$100 for transporting liquor when arraigned before Judge Emmett Jackson in criminal court Saturday.

Officers Landfair and Glover were called to the hotel to take Taylor in custody. He was intoxicated, police say. The liquor, he said, was given to him by a friend from Cincinnati.

OHIO BANKER  
TAKEN ON 3  
INDICTMENTS

CANTON—(By Associated Press)

Harry B. Ward, vice-president of the Beach City Banking Company, which operates a bank at Beach City, this county, is under arrest here on

three grand jury indictments charging appropriation and manipulation of the bank's funds. The grand jury investigation followed the discovery by state examiners of a shortage of \$115,000 in Ward's accounts, county officials say. Ward's bond was fixed at \$10,000 by Common Pleas Judge Ako and he is arranging to furnish security.

Ward, who was also an officer of a large pop corn company, is alleged to have used bank money to maintain the pop corn company.

MINE STRIKE  
SETTLEMENT  
IS IN SIGHT

INDIANAPOLIS, Ind.—(By Associated Press)—Work in some of the mines of the Indiana coal field was resumed today and officials forecast a general return to work within the next few days of the 28,000 striking miners of the district, as the result of the action of the United States court of appeals at Chicago in suspending District Judge A. B. Anderson's injunction prohibiting the check-off. John Hessler, president of district number 11 of the miners' union, announced he would confer with operators today and if they agreed to check off in line with the court ruling announced last night, he would order the men to resume work at once.

Several mine owners in the field announced all preparations have been made for an immediate resumption of work. All minor trains that have been discontinued will be restored at once. The mine owners predict that work would be resumed by Monday in every mine in the state that has been closed by the strike.

WORLD'S RECORD FOR  
GRAIN HAUL IS SET

REGINA, Sask.—Carrying 165,000 bushels of wheat behind one engine, what is believed to be the world's record for a grain train, was operated into Arcola, Sask., yesterday by the Canadian Pacific railroad. Nine-tenths of a mile long, the train consisted of 110 fully loaded cars of wheat, a water car and a caboose, in addition to the engine. The weight of the train was approximately 6,868 tons.

BELFAST POLICE BARRACKS  
RAIDED BY SINK FEINERS

BELFAST—Sixteen Sinn Feiners raided the police barracks at Kesh, county Fermanagh, last night, overpowered the four constables in charge, seized all the rifles and ammunition and escaped. They took advantage of the absence of most of the garrison, who had gone to Enniskillen to attend a boxing tournament. General Tudor, Irish police chief, Colonel Wickam, Ulster divisional commissioner, and other high police officials were at the tournament.

SENATE WILL  
VOTE ON TAX  
BILL MONDAY

WASHINGTON—(By Associated Press)—After a rest of only nine hours, the Senate returned to its tax revision fight today under a unanimous consent agreement limiting debate. Reached at one o'clock this morning, just before the Senate adjourned until 10 a. m., after a continuous session of thirteen hours, the agreement provides for a vote by not later than 3 p. m., today of amendments offered by Senators La Follette, Republican, Wisconsin, following which the soldiers' bonus amendment will be taken up to be disposed of by midnight. Recessing them to ten a. m., Monday, the Senate would proceed under a ten minute debate limitation and Republican leaders hoped the bill might be passed by Monday night.

REMOVED FROM HOSPITAL  
Blanche Wilkinson, 421 S. Jackson-st., recovered sufficiently at City hospital to be removed to her home. She has been seriously ill.

PLOT TO ROB  
EXPRESS IS  
CONFESSED

PADUCAH, Ky.—(By Associated Press)—Illinois Central railroad detectives today are searching for two alleged train wreckers. Howard Phoenix and Ira Anderson are under arrest and the former has confessed that the wrecking of the fast Memphis-Louisville passenger train on the night of May 23, just outside of the city here, was the result of a plot to rob the express car or shipment of one hundred thousand dollars.

Phoenix and Anderson, Paducah youths, were arrested yesterday. Phoenix here and Anderson in St. Louis, after detectives had worked for almost six months on the case. Phoenix signed an affidavit implicating himself, Anderson, and two men not yet apprehended.

The lives of scores of passengers probably were saved by the fact that the train was ahead of time and was coasting along when it struck a loose rail, the engine, tender and baggage car being derailed. Investigation showed that the spikes had been drawn from under the rails.

ACTIVITIES PLANNED  
BY LIMA MERCHANTS

The publicity committee of the Lima Merchants' Association will hold a meeting early next week, to complete plans and details for the early Christmas shopping campaign. Jim Morton, secretary of the association, promises to inject some original ideas into the Christmas campaign this year and Lima merchants are awaiting announcement of publicity plans which will be formulated at the meeting next week.

"there is no excuse for gouging yourself into paying high prices for good tires"—Frank Sevier

## I Talked With 100 Manufacturers--What I Learned!

SOME manufacturers made mistakes costing them millions. Will you pay?

There are a lot of tires in this country that have been manufactured at the wrong kind of prices. I learned too that most manufacturers are tied up for a long time to come on material at destructive day prices, and it is a fact that destructive day prices with these same manufacturers have not been cut to meet constructive day possibilities. This is where you, as a tire buyer, come in. Are you going to stand the other fellow's loss and pay high prices for your tires?

And another thing—have you noticed how adjustments are made when a tire wears out before its time? I mean the "red tape," delays, shortages, etc?

Well, we make our own adjustments right here, saving you transportation charges, delays and embarrassment.

What is our guarantee? Our super-size fabric tires are guaranteed for 7,000 miles; long-distance cord tires, 10,000 miles. Since rubber and fabric prices are so low, our tire manufacturers put enough good material into the tires to make them last even much longer than the guarantee calls for on most other makes.

### Attention Merchants!

While our tires are equal to the best and superior to most in quality, and carry a longer guarantee than usual, our prices are much lower than the so-called "wholesale prices" you are getting today.

### I found a gold mine for Lima auto owners

For some time I have been searching for a manufacturer who is in position to build tires on a basis that would come within the purchasing power of the public today. I found just such a company after investigating a hundred factories and interviewing representatives from scores of others.

This factory has not created any new condition but has discovered a way to make better use of old conditions; every wasteful method of merchandising has been cast into the discard; frills in general advertising and costly selling methods have been eliminated; in a word—it is now possible again for Lima tire users to get what they want in quality and price instead of having to take what they could get.

Our contract insures us buying at the lowest levels at all times and as our profits are based on volume our margin on a single tire or set is only slightly above cost.

We are experienced in the tire business and every tire that goes out will be exactly as represented.

This is and always will be Lima's lowest priced tire house — Here to stay

TWO tires from different factories may wear equally well—but differ in cost.

Our tires are made from 18c a pound rubber, while most tires offered the public today are made, and will be for some time to come, from 64c rubber, the same grade but different only in market price. So you can see there is no mystery connected with our selling tires at \$10 when other stores must ask nearly \$20 for the same size and grade.

Aladdin has nothing to do with rubber, fabric nor workmanship. Nothing whatever magic about these features of tire building. Machinery is about the same in every factory and the human element is about uniform in any well managed factory.

Why then should you slave yourself to the hard-hit manufacturer, pay a high price for his tires and help him pay for his high priced rubber and materials? Might as well save about half on your tires.

We'll leave it to you—you be both the judge and jury.

### Have We Written You?

I want you on my mailing list. Our tires are one price to all, the quality the same throughout. Phone, write or call for printed quotations.

Telephone Main 1030

THE SEVIER TIRE CO. 116 West Spring St.

## GREAT FINANCIAL SCANDAL GROWS

New Phases Revealed in Stock Exchange Firm's Failure

### MISUSE OF FUNDS RELATED

Forbes Comments on the Chandler Brothers Case

(By B. C. FORBES)

NEW YORK — (Special) — The most scandalous statements are made, by those who ought to know the facts, concerning the on-gosings which preceded the recent failure of the New York and Philadelphia Stock Exchange firm of Chandler Brothers and Company. The shortage of the firm runs into millions — far more than could possibly have been lost by conducting the brokerage business on high grade lines.

I am told, however, that several of those whose funds were appropriated by Chandler Brothers and Company are determined to do everything within their power to land the guilty ones in prison. Case after case of shocking misuse of funds has been related to me. Some of the charges made are almost unbelievable. If one small fraction of the wrong-doing alleged can be proven in court, prison doors should swing open.

One particularly ugly feature of the scandal is that quite a number of "insiders" were tipped off months in advance that the firm was in financial difficulties, and thus gave them plenty of time and opportunity to get out before the crash came. I know one town alone where the losses suffered by customers run into very large figures. Some of the victims declare emphatically that their recent accounts were handled in flagrant violation of legitimate, established principles.

For the New York Stock Exchange governors and everyone else occupying places of responsibility in the financial community to gloss over such disgraceful episodes as those connected with the Chandler Brothers and Company failure and to utter not one word of condemnation, is not the way to establish the confidence of the public in the New York Stock Exchange, its government, its members, or in Wall-st.

The whole disgraceful scandal, however, promises to be exposed thru pending litigation by victims who have suffered losses such as are never entailed by any one dealing with an honestly conducted stock exchange firm.

Perhaps it would be well to add that the number of swindlers among the members of the New York Stock Exchange is extremely small. In fact, one feels justified in assuming that the admission of any firm to membership in the New York Stock Exchange is evidence that its members are honest, honorable men.

Copper stocks, steel stocks, leather and glue stocks, public utility stocks and mail order stocks are among those which ought to do better under the change that is taking place in business conditions.

The gobbling up of American oil properties and companies by the British-controlled Royal Dutch interests is exciting warm discussion in financial and circles. So, too, are some of the other oil deals, re-organizations, mergers, etc. The largest deal now attracting attention is the setting out of the Union Oil Company of Delaware to the Royal Dutch. The former company owns a large block (reported to be 27 per cent) of the stock of the Union Oil Company of California and there is much speculation as to whether the California company will also be corralled by the powerful foreign octopus. A number of California company's stockholders bitterly oppose such a scheme, and are petitioning other stockholders to join them in pulling their stock so as to guard against it.

A lot of piquantly interesting financial history is understood to lie underneath the conduct of the affairs of the Union Oil Company of Delaware. Some very important financial names are identified with the career of this enterprise, and a few of them are said to have lost a good deal of sleep over some of the things that have taken place. The merging of the company with the foreign combination is regarded as a convenient way to close the record.

We hear much about the possibility of reducing railway freight rates. How many changes in individual rates do you think have been filed with the Interstate Commerce Commission? More than a million!

Don't be astonished or alarmed if statements on business conditions become less optimistic shortly. Most leaders will probably delay making avoidable important decisions until the Washington conference is well under way and some idea can be obtained as to how the cat is likely to jump. At least for a brief period, rather pronounced irregularity may be experienced both in business and in the stock market — altho the chances are that bonds will continue to recover.

At that, however, merchants are probably justified in counting upon ensuring very brisk Christmas trade.

### STANDARD OIL CLERK COMMITS SUICIDE

CLEVELAND — Thomas J. Stanbury, 50, chief clerk at the Standard Oil company refining plant, committed suicide this morning in his office by shooting himself thru the chest temple.

Police were unable to learn the chief motive for his act.

## FAIR WEATHER SUNDAY OUTLOOK

CONTINUED fair is the welcome forecast released by the weather bureau for tonight and Sunday. Freezing temperature tonight, but warmer Sunday. That's fine. Maybe, after all, the sort of weather conditions with which we are to be faced on the morrow will permit of the staging of the Lima-Wapakoneta baseball game, at Murphy's lot, without danger of those sitting thru the session endangering their health.

Forecast of a freeze is not surprising, considering that the month of November is well under way and that in this zone, quite often, real winter has made its appearance at this time of the year.

But here's hoping for sunshine, real warm rays in generous quantities on the morrow.

## SERVICE MEN AT VOTING PLACES

Legionnaires, in Uniform, to Work for Bonus

Uniformed soldiers at each polling place in the city; uniformed soldiers with literature, with advice, ready to answer all questions uncertain in the minds of voters, will be stationed by the American Legion when Lima electors go forth to mark their ballots, Tuesday.

Such action was decided at the regular monthly meeting of the American Legion Friday night. That no voter in Lima will be permitted to forget the soldier bonus amendment when he enters his voting booth, was assured by Legionnaires.

"Ex-service men will turn out in large numbers Tuesday to help carry the vote for state bonus over the top," Colonel John Harley, commander of the Lima Legion, said Saturday.

Reports of the preliminary work done by ex-service men during the last two weeks, in behalf of the amendment and plans for stationing uniformed soldiers in the immediate vicinity of each voting booth in Lima, were important matters covered at Friday night's meeting.

Every American Legion man in Allen-co will be asked to don his uniform and march in the Armistice Day parade Friday. Local Legionnaires and a bugle and drum corps will follow immediately behind city police at the head of the parade.

Perhaps it would be well to add that the number of swindlers among the members of the New York Stock Exchange is extremely small. In fact, one feels justified in assuming that the admission of any firm to membership in the New York Stock Exchange is evidence that its members are honest, honorable men.

### TAGS SELL RAPIDLY IN AID OF HOSPITAL

Tag day for St. Rita's hospital started off with a rush, Saturday morning.

Early in the day women and girls were on the streets, selling the little tags, in return for whatever amount of money the purchaser wished to pay.

All day long the sellers braved the crisp November weather in an effort to increase the treasury of St. Rita's hospital. The benefit was put on under the auspices of women of St. Rita's hospital guild. The sale of tags will continue throughout the day.

First reports which came to those in charge indicate that efforts of the sellers of the tags will be well rewarded.

At that, however, merchants are probably justified in counting upon ensuring very brisk Christmas trade.

## FIRE RAZES STORES IN UNIOPOLIS

CONTINUED fair is the welcome forecast released by the weather bureau for tonight and Sunday. Freezing temperature tonight, but warmer Sunday. That's fine. Maybe, after all, the sort of weather conditions with which we are to be faced on the morrow will permit of the staging of the Lima-Wapakoneta baseball game, at Murphy's lot, without danger of those sitting thru the session endangering their health.

Forecast of a freeze is not surprising, considering that the month of November is well under way and that in this zone, quite often, real winter has made its appearance at this time of the year.

But here's hoping for sunshine, real warm rays in generous quantities on the morrow.

At noon Saturday fire was still raging in Uniopolis after totally destroying the Edwin Betheras general stores, partially raising Charles F. Taylor's residence and attacking the Betheras residence. The flames originated in the Betheras store at 10 a.m.

Fire fighting apparatus from Lima, Wapakoneta and Waynesfield was dispatched to the village in effort to save it from total destruction. Estimate of fire damage was undetermined at noon.

Pumper No. 3 of the Lima fire department was rushed to the Auglaize town nine miles south of this city, when flames in Betheras store got beyond control and spread to other buildings. A call for piece work in the garment trades is the cause of the reduction, it is said.

TWIN FALLS, Idaho — Mrs. Lydia Meyer Southard was declared guilty of second degree murder of Edward F. Meyer, her fourth husband, by a jury that deliberated 23 hours.

NEW YORK — Prices of women's clothing will be 25 to 32 1/2 percent lower next spring than they were last spring according to announcement made by Cloak, Suit and Skirt Manufacturers' Association.

Return to piece work in the garment trades is the cause of the reduction, it is said.

TOLEDO — Pearl Sommer, sentenced to four years in prison for conspiracy in Toledo \$1,000,000 postoffice robbery, was taken to Rockwell, Iowa, federal prison for women.

TOKIO — (By Associated Press)

Cables express horror over the assassination yesterday of Takashi Hara, the premier, poured into Tokio today from the capitals of virtually all nations. The attack on M. Hara was made by a demented youth, and there is no definite knowledge as yet that it had its genesis in the political rancor which actuated bitter assaults upon M. Hara and his government in the recent past.

Vicente Uchida, former Japanese minister to the United States and foreign minister in the Hara cabinet since 1918, has assumed the post of acting premier, pending a possible reconstruction of the government.

NEW YORK — Prices of women's clothing will be 25 to 32 1/2 percent lower next spring than they were last spring according to announcement made by Cloak, Suit and Skirt Manufacturers' Association.

Return to piece work in the garment trades is the cause of the reduction, it is said.

YOUNGSTOWN — Charges of misuse of office against Mayor's Secretary John F. Banks have been nolled, according to announcement from the prosecutor's office today, simultaneous with announcement at the city hall that Banks had resigned.

Joseph Wees, politician under indictment for extortion, will go on trial Monday acting as his own attorney.

Wees is not a lawyer.

Banks and Wees were indicted with Safety Director Scott, convicted of bribery this week.

Russell Nance, 32, of 139 W. Ninth-st, was fined \$25 and costs and committed to the county jail until such a time as the fine is paid, in the court of Justice Ernest M. Botkin, Saturday.

Nance had applied for groceries for his family to the Red Cross. When he was asked to return the amount in work in the City park, Nance mounted his bicycle and went for a ride thru the country Friday, officers state.

Mrs. Irene Mills Jackson preferred the charge. Justice Botkin informed Nance he must remain in jail until he realized the wrong of endeavoring to secure money by fraud. Nance first plead not guilty and a few minutes later changed his plea to that of guilty. He has a wife and four young children.

MOTOR BACKFIRES, BIG TRUCK FEEDS FLAMES

A motor truck owned by J. Delventhal, R. D. No. 2, Liberty Center, was totally destroyed by fire at 8:30 Friday night, five miles north of Lima, on the West Cario road.

Delventhal had been to Lima with a load of vegetables which he had marketed during the day and was returning home when the accident happened. It is believed backfire from the motor caused the mishap.

MASSILLON, O. — An unidentified man found dying on a road near here last night, died shortly after being taken to a local hospital.

Papers found on the man bore the name of Kosn Sanday, and the address 1013 South Main-st, Akron, Ohio. Three wounds in the head may have been bullet wounds or caused by a blunt instrument, police say. Altho a revolver with three empty cartridges was found under the man's coat, police said the man was murdered and the body carried in an automobile to the spot where it was discovered.

STRANGER MURDERED, LEFT ON ROADSIDE

MASSILLON, O. — An unidentified man found dying on a road near here last night, died shortly after being taken to a local hospital.

Papers found on the man bore the name of Kosn Sanday, and the address 1013 South Main-st, Akron, Ohio. Three wounds in the head may have been bullet wounds or caused by a blunt instrument, police say. Altho a revolver with three empty cartridges was found under the man's coat, police said the man was murdered and the body carried in an automobile to the spot where it was discovered.

FANCHIER OBSEQUIES TO BE HELD MONDAY

Funeral services for Obed V. Fanchier, late of 264 S. Pine-st, will be held Monday at 10 a.m. at the residence. Rev. Walter D. Cole will officiate. Interment will be at Woodlawn.

Death occurred Friday, after a short illness from pneumonia. Besides the widow, he is survived by a son, George, and a granddaughter, Jacob Fanchier, Alger; Richard Fanchier, Flint, Mich., and John, Henry and McCellan Fanchier, of Lima, are surviving brothers. Mrs. Montressie Houx, Lima, is a surviving sister.

**WAPAKONETA MAN IS SENTENCED**

Jloyd Weiler Taken on Charge of Stealing an Auto

WAPAKONETA.—(Special).—Cloyd Weiler, who served a thirty-day jail sentence here for stealing coal, was sentenced to the Mansfield reformatory by the Montgomery county court for complicity in stealing an auto. He was taken there Thursday.

The body of Earl Munch, Auglaize county soldier who met death in world war, will be interred at Sidney Armistice Day.

Mrs. Julia Musser, 71, widow of the late F. A. Musser, died here Friday, at the home of her son, Dr. A. B. Musser, from pneumonia.

The Narcro company, manufacturing refrigerators, is being reorganized and re-capitalized here. Spring field business men are interested and considerable mechanical talent will be brought here.

Water will be let out of the Auglaize river to permit the construction of a concrete levee and to assist contractors in building a bridge. To keep 25,000 young fish from escaping thru the gate of a dam, wire screening will be placed over it.

**APPEALS COURT REFUSES NEW TRIALS FOR WILLIS AND DONOVAN, GANGSTERS**

Defeat again crowned the efforts of counsel for Joe Willis and George Donovan to obtain a new trial when the court of appeals unanimously voted against it. Decision was given late Friday.

It was immediately announced by defendants' counsel that the case will be carried to the supreme court.

Willis and Donovan were captured following a gun battle in the south side, May 21, in which Raleigh Ross Townsend was shot and killed by the police and McGanh, leader of the gang, wounded in a running fight. John Mason, another suspected member of the gang was captured, and is serving sentence for carrying concealed weapons. The gang was alleged to have robbed the Huntington bank, near Fort Wayne.

Donovan and Willis stood trial and were convicted for the robbery of Jacob and Samuel Fett, Beaverdam Farmers. Every effort has been exhausted by counsel to obtain new trials.

Unless counsel can obtain a stay and carry the case to the court of last resort, the two men will be taken to Columbus soon to serve their sentences.

**STATE LAW NULLIFIES PAWBROKER LICENSE ORDINANCE IN LIMA**

Pawn-brokers in Lima need no license from the city to operate, when they have taken a license from the state.

This fact was brought out Saturday when City Clerk James I. Hefner made demand on Philip Kohn, loan broker, 106 E. Market st. for the payment of \$100 for a new license.

It was then learned that the old ordinance, passed in 1883, requiring brokers to pay \$100 license fee annually, had been nullified by Section 6327 of the General code, passed this year.

The new law requires loan brokers to pay \$150 for a state license and furnish \$2,000 bond. One-half of the fee is to go to the city in which the broker operates.

**Turpentine Breaks Worst Cold Over-Night!**

New Turpentine Discovery Gives Almost Instant Relief for Colds, Sore Throat, Croup, Sprains, Rheumatism.

Turpentine breaks bad colds as if by magic. Penetrates down deep and drives cold right out! Don't let your cold hang on. Don't sniffle—don't go around with a tight chest or with a cough that racks your whole body.

New discovery, Turpo, combines all of Turpentine's mysterious healing properties with other wonderful healing agents. Turpo does not burn, blister, smart or stain—it is not greasy or smelly! With such amazing quickness and thoroughness does Turpo act that when rubbed into the chest or throat a faint

**Children Cry for Fletcher's Castoria.****A Message to Mothers**

You know the real honest doctor right around to your neighborhood. The doctors make of flesh and blood just like you, the doctors with good and坏的; those ones who are responding to your call in demand of ought as readily as in the broad daylight; they are ready to tell you the good old Fletcher's Castoria is done, is doing and will do from their experience and their love for children.

Fletcher's Castoria is nothing now. We are not asking you to try an experiment. We just want to impress upon you the importance of buying Fletcher's.

Your physician will tell you this, as he knows there are a number of imitations on the market, and he is particularly interested in the welfare of your baby.

*Jack Fletcher***Children Cry for Fletcher's Castoria.****CITY MAY HANDLE MILK SUPPLY**

CLEVELAND.—(By Associated Press)—Delivery of milk by the city seemed probable early today as the Telling-Belle Vernon Company remained deadlocked with its 800 striking milk wagon drivers over the question of arbitrating working conditions. Mayor W. S. Fitzgerald said he was ready to take such action unless the company agreed to arbitrate.

Mayor Fitzgerald's decision was reached late last night after a futile attempt to have company officials attend a conference he had called. Instead he received a letter from the company declaring that the wage scale would be the only point which it would submit to arbitration.

It was immediately announced by defendants' counsel that the case will be carried to the supreme court.

Willis and Donovan were captured following a gun battle in the south side, May 21, in which Raleigh Ross Townsend was shot and killed by the police and McGanh, leader of the gang, wounded in a running fight. John Mason, another suspected member of the gang was captured, and is serving sentence for carrying concealed weapons. The gang was alleged to have robbed the Huntington bank, near Fort Wayne.

Donovan and Willis stood trial and were convicted for the robbery of Jacob and Samuel Fett, Beaverdam Farmers. Every effort has been exhausted by counsel to obtain new trials.

Unless counsel can obtain a stay and carry the case to the court of last resort, the two men will be taken to Columbus soon to serve their sentences.

**STATE LAW NULLIFIES PAWBROKER LICENSE ORDINANCE IN LIMA**

Pawn-brokers in Lima need no license from the city to operate, when they have taken a license from the state.

This fact was brought out Saturday when City Clerk James I. Hefner made demand on Philip Kohn, loan broker, 106 E. Market st. for the payment of \$100 for a new license.

It was then learned that the old ordinance, passed in 1883, requiring brokers to pay \$100 license fee annually, had been nullified by Section 6327 of the General code, passed this year.

The new law requires loan brokers to pay \$150 for a state license and furnish \$2,000 bond. One-half of the fee is to go to the city in which the broker operates.

**A WOMAN'S LOVE**

**T**HE Mystery House stood at 90 Putnam Avenue, Brooklyn, N. Y. For six years no one was allowed to enter it.

Inside lived Mrs. Margaret Easton, widow of a rich insurance man. When he died in 1915, she drew down all the shades over the windows of the three-story frame dwelling.

Thereafter she never left the house, until the other day when pall-bearers carried her out.

Few had seen her during her self-imposed hermit's life. When food was delivered, she received it through a cautiously opened basement window.

Mrs. Easton stopped buying food. Neighbors became suspicious. Detectives broke in. They found everything in the house, even the rugs, thickly coated with dust. In a rocking chair, a peaceful smile on her face, was the old woman of 80 years, gone to join her husband.

Searching the house, detectives found \$50,000 worth of gems and bank books showing deposits of \$300,000.

Charles Dickens could have built a great novel on this.

**T**HE Eastons were a very happy couple, pleasure-loving, contented and prosperous. The reaction on Mrs. Easton, caused by her husband's death, is one of the most interesting cases, in years, of the all-powerful control of the soul by that strongest of all emotions—love.

Nothing else really matters in life, to a couple happily mated. Prosperity, adversity, disappointment, success—all these are incidentals.

Cynics deny love much that is claimed for it. That is because they go through life loving none but themselves.

That love is the only thing in life that really counts is proved by the perpetual search for it by all men and women, in all centuries, in all countries. Few find it.

**W**HAT is love? No two people would give you the same answer. One calls it God, another beauty, a third happiness. Others say it is akin to hate. Still others call it the affinity of souls.

Ernst Haeckel, one of the greatest biologists, attempted to put love through a laboratory and prove that it is purely a chemical reaction. Some think he nearly succeeded.

The most interesting of the many peculiar theories about love was advanced by Socrates, wisest man who ever lived, thru his reporter, Plato.

Socrates believed that a soul, coming into the world, is torn in two, one half a woman, the other half a man. The two parts, ever yearning for soul reunion, wander the earth, seeking each other. If you find the right half, you have love—supreme happiness. If you get the wrong half, the lonely road becomes inviting.

**AS YOU LIKE IT**

Mme. Kaji Tajima, president of the Japanese W. C. T. U., who is in this country, says Japanese women have not so pretty legs as their American sisters, therefore when they sit down. We're trying to figure out whether she is complimenting American women or rapping them.

We lamed in an umbrella advertisement the like, "Traveling umbrellas." What other kind of umbrellas is there? Every umbrella we ever bought was a traveling umbrella, and a fast traveler, too. We were never able to overtake it after the third or fourth week.

**PARABLE OF THE SILVER MINE**

BY DR. WM. E. BARTON

**T**HERE is a place where they mine for silver, and some of those who sell it find it, and the number of those who do not is sixteen to one. And this did they tell me concerning one great mine where now they take forth silver and lead in great quantities.

Eleven long years did they dig before they found silver. And they

sank much money and many hopes before they got back much of either. For they dug a year upon one level, and made galleries to the right hand and to the left. Then did they sink the mine deeper and run galleries likewise. And then did they dig in other directions.

And when, at the end of eleven years, their money having been well nigh spent, they found silver, then

did they go back and try to discover why they had missed it before. And they found that some of their digging had been upon the wrong level, and some of it had been in the wrong direction.

But one of their tunnels had been on the right level and in the right direction. And they went back to it, and drilled yet again, and put in two or three good blasts, and lo! the silver was there also.

And they reckoned how long before they got wrought there, and they found that it had been five years, and they measured the rock that had separated them from the silver when they abandoned that tunnel, and it was only five cubits.

Now, if they had had additional faith as a grain of mustard seed and a few sticks of dynamite, they might have removed that mountain and begun to collect dividends five years sooner.

And I considered when they told me this how many men there who hold five cubits on the higher side of success, when one more blast and a little more faith would bring them their heart's desire.

And I say unto all men who labor in a righteous cause not to be weary in well doing, for the reward is to him that overcometh. For the man who stoppeth five cubits this side of success hath many years of oil ahead to make good his lack of faith.

**POEMS YOU WILL ENJOY**

By Burton Bracey

**MISSING**

The Diamond Horseshoe gleams and glows  
With splendor as of storied Rome,  
The audience, in sorred rows,  
Fills all the house, from pit to dome;  
The leader waves his thin baton,  
The music rises as of yore,  
But there's a golden magic gone,  
The voice of voices is no more.  
  
The sounds of woodwinds swells and dies,  
The cymbals clash, the snare drums roll,  
Above the zoom of violins rise  
Voices that shake the heart and brain.

(Copyright, 1921)

**READING THE ADS**

LIMA'S reading public—and that embraces all who are able to read—has developed to a marked degree the habit of giving as much attention to the advertising news in the newspaper of the day as they do the news columns, wherein is recorded the deaths, burials, births, police and court news and big happenings of the city, along with the news of the world ticked off by the telegraph instruments so faithfully.

Experience has taught that careful, economical and advantageous buying is dependent upon watching the advertising columns. In this great newspaper, day after day, appear the messages of the progressive business organizations, those reaching out for the patronage of the public, offering real bargains that cannot fail to attract attention and impel the steps of the reader to that particular emporium.

Time also has taught its lesson. There are many kinds of advertising plans, each valuable in its own particular sphere, doubtless, but there no longer remains any doubt of the fact that the most desirable method is thru the columns of the newspaper. In days of yore, nobody thought of buying newspapers for anything save the news of the day. Now it is different. They are bought for the store news as well. The newspaper that goes into the home is the one that brings the best returns to the advertiser. In the Lima field that newspaper is The Lima News.

Proof exists in many avenues. The newspaper is the connecting link between the interests of the seller and the buyer. It is the indispensable agency thru which the merchant displays his wares. It is the mirror that reflects the opportunities provided for the buying public.

Just as advertising has become indispensable as a part of the plan of the successful merchant, in equal measure is the newspaper indispensable as the medium employed in making advertising a wonderful success. Often the most valuable news in a paper is in the advertising column. You cannot afford to pass them up.

# WAPAK REDS TO PLAY LIMA INDEPENDENTS SUNDAY

## ALL DISPUTES ARE SETTLED; STARS ON WAY HERE

The fifth and deciding game of the Wapak-Lima championship series will positively be played Sunday afternoon at the Murphys' ball park, providing the weatherman does not interfere with present plans.

All disagreements regarding financial matters were satisfactorily settled late Friday afternoon between Managers Halloran and Langhorst, and it was announced authoritatively from local baseball headquarters that the game will be played.

Simultaneously with this announcement a dozen men were sent to all parts of Allen and Auglaize cos with posters and the word that the game will proceed as previously billed.

Up until Friday noon it appeared as if the game would not be played, but two hours later everything was going good and final arrangements were completed.

Langhorst and Halloran announced Saturday morning early that they have lined up all their players scheduled for last Sunday, when the weatherman tilted his sprinkler and caused the postponement of the game.

The 14 major league stars are due to arrive in Lima late today and will take up their quarters at the Norval hotel and the K of C. Recreation building.

Elmer Smith, Billy Southworth and Wilber Cooper were due to arrive by two o'clock and will take a short workout late today at the local park. George Uhle, Wapak's hurler, will get in from Cleveland tonight with Wamborgans and Graney.

WEST POINT, N. Y.			
Sam's cadets were called upon to face today one of the most dangerous football teams on the gridiron—Notre Dame.			
The Indiana team promised to carry the battle to the Army thru the medium of the forward pass, which has always been keen rapier in the hands of Coach Rockne's men. Army was expected to rely largely on line plunges and end runs. French, Army's backfield star, was out of the game due to injuries.			
The Bears will enter the game without the services of their captain and quarterback, Frank Croley, who was injured in the Wittenberg game, but the team, on the whole is in good condition, and appears to be ready to give the Ohio eleven a run for its money.			

### SOUTH AWAY

CINCINNATI			
Twenty-three players, in addition to coaches and managers will be taken to Athens today by University of Cincinnati in an attempt to turn back the Ohio University football team. In addition to the players about 200 students and alumni are making the trip in a special train.			
The Bearcats will enter the game without the services of their captain and quarterback, Frank Croley, who was injured in the Wittenberg game, but the team, on the whole is in good condition, and appears to be ready to give the Ohio eleven a run for its money.			

SPRINGFIELD			
Coach Godfrey expects a hard battle when his Lutheran eleven meets the Kenton team this afternoon in the first conference game played at home.			
Several of the Wittenberg players are not in the best physical condition as a result of the Cincinnati game played last week. The Lutherans, however, are in good spirits but not overconfident.

**ACTIVITY SHOWN  
IN INDUSTRY**

Demand for Local Stocks is Accepted Barometer

**OIL STOCKS STRONG, QUIET**

Garford Preferred and Sheet Metal Are Accumulated

There was little change in the market for local stocks during the week. Prices held their ground and the buying demand was fairly broad.

Buying continued in Garford Motor preferred, but the supply was fairly large, and no price changes resulted.

Interest close to the management of the Lima Sheet Metal Products company continued to accumulate the shares and stock changed hands at par.

Lima Locomotive common and preferred was in demand and several odd lots were purchased, the closing being slightly higher.

Ohio State Telephone issues were easier, with the exception of the Consolidated 5%, which sold at a new high of 83.

Procter &amp; Gamble common continued in demand at the high price for this move, and the 6 percent preference was bought at a new high of 100%. Local Oil stocks were strong but inactive. No sales were reported in Bank stocks.
